

“Great Staff and Great People”

I first came to Dr. John with extreme back pain in the lower back. I had these symptoms for about two weeks before taking action. I had to find a fix for the problem, plus my father had been to the chiropractor so I thought that I would give it a chance. I really didn't have any doubts about the chiropractor I just needed to get out of the pain.

My first impression of Dr. John's staff was that they were a great staff and great people. After a short period of time, the pain lessened and eventually went away. I can now work without with being in pain. I no longer have to take medication to ease my pain.

I would recommend others who are sick, suffering, or in pain to try chiropractic care because it may just solve their problem. I know that chiropractic care really works not only because the pain is gone but by proof of x-rays also.

Sincerely,
