

“I feel great and would do it all over again.”

I came to Isdale Chiropractic because I was suffering from stress, shoulder and back problems. I was experiencing frequent headaches, weakness, upset stomach, and tingling in my toes. I was in constant pain and discomfort in my neck, shoulder and back.

I was seeing my MD for these symptoms, but I was still experiencing the same discomfort. The medications that my MD would prescribe seem to help for the moment, but never actually took the pain away. I was tired of swallowing pills and getting no relief so I came to the chiropractor instead.

I started feeling a lot of relief within the first few visits. I can now enjoy my day without having a headache, back pain, hip pain and a lot of other things that I could not do before.

I would recommend chiropractic care to others who are sick, suffering or in pain. I am hoping to bring my husband in soon. I feel great and would do it all over again!

Sincerely,

Rosalie B Crouch
