

# **LETTER OF APPRECIATION**

**DATE OF LETTER: 8 MARCH 2013**

**TO DR. JOHN STOCKTON AND STAFF AT  
ISDALE CHIROPRACTIC  
211 LIBERTY BELL SUITE 111  
COPPERAS COVE, TX. 76522**

I had heard about chiropractors for years but I had never been to one. On December 28, 2012 I bent over and heard a pop in my back. I went to the emergency room on three different occasions at two different hospitals and received no relief. I was referred to my primary care physician. My primary care physicians at the two separate hospitals consoled me out to specialists. Eventually I was consoled out to a pain clinic. Because these doctors are so booked up, weeks passed between appointments. In the second week of my pain I decided to see Dr. Stockton at Isdale Chiropractic. They took x-rays and his wonderful staff evaluated me and made me an appointment with Dr. Stockton. Which did not take long.

**With no previous medical records on me, Dr. Stockton diagnosed my condition with amazing accuracy. Now months later, Dr. Stockton and his amazing staff have significantly decreased my pain with no medications given to me by them. I know that the medications given to me by my other physicians helped, but I believed that the treatment given to me by Dr. Stockton brought me to the point that I am now.**

This week I finally got into the pain clinic, but because my glucose level is so high, they could not give the injections for my pain. This is when I realized how much Dr. Stockton and his amazing staff has helped me in dealing with my pain without medications.

**I AM VERY MUCH APPRECIATIVE TO DR. STOCKTON AND HIS STAFF  
AT ISDALE CHIROPRACTIC IN COPPERAS COVE, TEXAS.**

Respectfully yours

Ricky Garrett
